

IN THE SPECIFICATION:

Amendments to the specification are set forth below in accordance with the revised amendment format of 37 C.F.R. § 1.121.

*Page 9, second paragraph (lines 10-17) should be amended as follows:*

---

A1 "The invention is particularly adapted for use with a traditional reflective Ferro-electric liquid crystal on complimentary metal oxide semiconductor (FLC-on-CMOS) micro-display assembly with the LC material being placed on top of a CMOS control chip. Pads on the top layer of the CMOS chip provide both electrical control of the LC material as well as the optical mirror for the light."
